

Morning Fly-In Safety Seminar

This safety seminar will be conducted by Mr. Jerry L. Densmore, who has been a FAASTeam Representative since 2007. Why not take some time to hear and learn about owner/operator maintenance requirements for safe flight. Jerry brings many years of valuable experience as an Aircraft Maintenance Technician and Certified Flight Instructor. Loss of control and low-level aircraft maneuvering will also be discussed.

Directions: This event will be conducted in the main airport hanger.
Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.
