

FAA Safety Team presents:

Select #: NM0126543
Representative Julie Hubner n/a

Stall, Spin and Emergency Maneuvers: The Airplane and Pilot's Point of View

Thursday, August 13, 2009 at 7:00 pm

HAS Hangar, Skagit Regional Airport
15254 Flightline Rd
Burlington, WA
Contact: Julie Hubner
(360) 941-0321
HAS@startouch.net

Many of you have heard Rich speak on these topics and as a refresher, he will be reviewing the critical recovery procedures. However, for this presentation he will devote time to explore the effect that airplane design has on stall & spin characteristics and recovery techniques. The seminar will open with an interesting video clip sent by one of Rich's test pilot friends.

Directions: I-5 exit 230. WA-20 W for 3.8 mi, RIGHT onto Higgins Airport Way for 2.3 mi. LEFT onto Airport Dr. LEFT onto Flightline road, 5th Hangar on left.
