

FAA Safety Team presents:

Joint Skies Seminar

The military bases in the Puget Sound area want to enable and encourage crosstalk in the entire flying community. Military and civil aviation often share the same skies and this event's main focus is to compare notes and provide a venue for free exchange of ideas that could possibly improve the safety of the entire Northwest aviation community. Starts at 0900 and ends at 1400 hours.

Directions: From I-5 North or South. Take exit 125 for McChord Field and Bridgeport Way. Turn south onto Bridgeport Way SW and proceed approximately 1/4 mile to the Main Gate.

A message from the National FAASafety Team Manager

The new WINGS—Pilot Proficiency Program is great! Check it out now!
