

ATC Communications - How to Make Your Contacts with ATC Go Smoothly

ATC is there to help. Without pilots, ATC wouldn't have a job. How you communicate with the ATC controllers can pay dividends in making your flight and their workload easier.

Directions: From Hwy 167 go East on 15th Avenue NW one mile. Turn North on D Street NE. Follow the road and it becomes E St. NE. Turn left on 23rd Street NE.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
