

## Perceptions & Human Error

Is new cockpit technology enabling risk-taking behavior in today's pilots? The wealth of technology available in new single-engine aircraft is astounding. Moving maps, weather information, traffic warnings, terrain depictions, and GPS navigation have provided us unprecedented situational awareness and revolutionized how we fly. But, are these same technologies causing us to take unnecessary risks? This program will examine how cockpit technology influences our perceptions of risk, and affects our decision-making processes.

**Directions:** Western Washington Fairgrounds are located in Puyallup, just off Hwy 512, at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. FREE Parking in BLUE Lot. If flying into PLU see additional information below for airport shuttle details.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
