

iPad Forum - From Paper to Electronic to Mini iPad

This forum will explore the different resources available to you with the use of an iPad in the cockpit. Pros and cons of different applications and uses will be discussed. Flight planning, filing, airport database, VFR and IFR charts and more are presented to you in an electronic format, increasing your situational awareness in flight. See how the new iPad mini fits in. Learn more about the new world of electronic information available to you as a pilot when using the iPad.

Directions: From Hwy 9, the Snohomish-Woodinville Hwy, go East on Airport Road and arrive at Snohomish Flying Services on the left. Meeting will be in the hangar just West of the cafe.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
