

Washington Aviation Association presents:

# **Chock Talk With A Fighter Pilot - NORAD TFR & Intercept Briefing**

Situation: It's a beautiful day and you're looking to get some VFR stick time on your way to the best \$100 hamburger in the area. You 'kick the tires' and takeoff. You are flying along without a care in the world. "WOW!!! What's that F-16 doing off my wing? He sure is close! I wonder what he is trying to tell me?" We hope you are never in this position, however if you fly around without planning for your flight you might get a personal invitation from a NORAD fighter to "Follow me". "Sure would be nice to know what he is saying..." Discover the #1 reason general aviation aircraft are intercepted and how to avoid it. In this action packed briefing you'll learn practical steps to avoid TFRs and what to do if you are intercepted. Join NORAD fighter pilots in an informative and lively session that will keep you out of trouble, and off the evening news.

**Directions:** Room B. Pioneer Room.

### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
