

Clyde Pangborn: First Nonstop Flight Across the Pacific

The Pacific was first crossed in 1931 by Clyde Pangborn—born in Washington during the end of the 1800's. Because of Clyde's practical and technical smarts, his physical coordination, his ability to act under extreme pressure, luck and just plain guts, he made the 4500 mile trip eighty five years ago in a single-engine land-plane. His spine-tingling trip was amazing!

Directions: Room A. South Foyer.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
