

How to fly the island airports in a variety of conditions

Jim Higginson was a long-time aviator in the San Juan Islands. He flew the postal route there many years ago, as he was beginning his aviation career. Jim has invaluable information as to how to approach the islands under a variety of weather and wind conditions, and this will be the essence of his talk, accompanied by a video he shot himself. Finally, A Question and Answer session will follow the presentations.

Directions: The fire hall is 150 yds from our South Tiedown area.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
