

## Experimental/Amateur Built First Flight Considerations

Jeff Bongard will lead you in discussing how to prepare for your first flight, how to develop a comprehensive flight test plan, your airport selection considerations, necessary emergency equipment, hazard identification, risk assessment, and risk mitigation. He will also discuss weight and balance issues, documentation, and first flight test hours.

**Directions:** From Hwy 9, the Snohomish-Woodinville Hwy, go east on Airport Road and arrive at Snohomish Flying Services on the left. Meeting will be in the hangar just west of the cafe.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
