

The Advanced Preflight - The Skillful Art of Getting Dirty With Style

The preflight of the aircraft is a very important factor in every flight. Stuff happens. Finding the stuff before it happens in flight makes your life a whole lot less stressful. You have been preflighting for years, but do you really know what to look for and what consequences you will pay if you don't?

Directions: FAASafety Team Safety Seminars are held in the FAA Forum Tent "D". If flying into AWO please check NOTAMS and see the Arlington Fly-In "FLYING IN" web page link in "Additional Event Information".

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
