

## STALL - SPIN !!! You have the controls!

This presentation features videos captured in the Extra 300L to illustrate a variety of stalls, spins, and recoveries from unusual attitudes. Topics covered include: Purpose of stall/spin training, Spin certification of aircraft, Regulations governing aerobatics, Stall/spin aerodynamics, Review of stall/spin accidents, Spin entry & recovery and Resources for additional information.

**Directions:** FAASafetyTeam Safety Seminars are held in the FAA Forum Tent "D". If flying into AWO please check NOTAMS and see the Arlington Fly-In "FLYING IN" web page link in "Additional Event Information".

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
