

Things you need to know about 'HOLDING'

Please come and listen to Mr. Spence Campbell, a very experienced Instrument Training Specialist. He has conducted thousands of hours of Instrument training and hundreds of Airine Check Ride Preparations. According to him, it is apparent that a majority of instrument pilots (including high time pilots and instructors) have some difficulties with non published holds. This seminar will address these issues and provide a different approach to holding procedures.

Directions: From I-5 North or South, Take exit 161, follow signs for Boeing Field, Take the 1st right onto Perimeter Rd S, Slight left to stay on Perimeter Rd S, destination will be on the right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice.
