

Rusty Instrument Pilot Seminar

The goal of this seminar is to develop a path to IFR Proficiency using practical tools and recommendations. Some topics covered are: basic attitude instrument flying, flight planning (regulations, instrument flight procedures, weather analysis, aircraft specific knowledge), single pilot resource management and aeronautical decision making. Then schedule your IPC with one of our CFII's.

Directions: Located at the Renton Municipal Airport. This seminar will take place from 10:00 AM to 12:00 PM.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
