

## Cirrus Systems Overview

Come enjoy a 2 hour presentation highlighting some of the state of the art systems on the Cirrus SR20 and SR22 aircraft. Cirrus is an innovator when it comes to redundancy and safety and you'll quickly learn why. Hosted by a professional Cirrus Standardized Instructor Pilot (CSIP), this presentation will help you navigate these complex systems.

**Directions:** Located at the Renton Municipal Airport. This seminar will be held in the Rainier Flight Service classroom. We are offering a free catered lunch from 12-2pm. Introduction flights in our Cirrus SR20 will be available. For RESERVATION information on these flights please call Amy Alvord at 425-336-7445 (RSVP required).

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
