

Considerations for Flying at Night

In this seminar we will discuss the operational and physiological factors involved with flying at night and how to mitigate the associated risks.

Directions: Safety in Motion Flight Center is located at the Pierce County/Thun Field Airport (KPLU) in the Spencer Aircraft Building. Depending on the number of attendees, the seminar will either be held in the 1st floor classroom or upstairs in the conference room. Our friendly front desk staff will provide direction as needed.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
