

Takeoffs and Landings in Adverse Weather

In this seminar we will discuss preflight planning, effects of wind on aircraft performance and limitations, techniques to help ensure a "stabilized approach" to landing, and visual illusions associated with adverse weather. This is a "free" seminar and part of our continuing FAA Safety Team series and eligible for Wings Credit. To register either go to www.FAASafety.gov and register online, or call Safety in Motion

Directions: Located inside Spencer Aircraft building

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
