

Winter Weather Flying and Icing Avoidance

In this seminar we will discuss flight planning considerations for winter flight operations. It's a beautiful time to fly, but there are risks associated with fall/winter weather that pilots need to address during preflight and adjust for in-flight as well to stay safe. This is a "free" seminar and part of our continuing FAA Safety Team series and eligible for Wings Credit. To register either go to www.FAASafety.gov and register online, or call Safety in Motion Flight Center at 253-840-5758 to reserve a seat!

Directions: Located inside the Spencer Aircraft building

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
