

Loss of Control Seminar At The Arlington Fly-In

Bruce William will discuss things to keep in mind while you are instructing and flying such as maneuvering your aircraft during slow flight, proficiency stalls, power-on power-off (straight ahead and turning). He will also discuss how to conduct the demonstration of a stall and stall recovery with a verbal description during the demonstration. You will also have to opportunity to discuss Cross-Control Stalls, Elevator Trim Stalls, Secondary Stalls, and Accelerated Maneuver Stalls.

Directions: FAA Forum Tent TBD

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
