

VMC/IMC Forum - Icing-Planning and Avoidance

This is a safety and educational forum on both IFR and VFR subjects. This is not a dull lecture. A practical subject/scenario will be presented each time by experienced CFI's for discussion. Forum participants are encouraged to share their questions, views, and experiences. This is an opportunity to learn from each other in a small group, with guidance from some very experienced pilots.

Directions: Simulation Flight is in the office park, NW across street from Future of Flight, which is on NW corner of Paine Field.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
