

FAASTeam presents:

VFR Workshop

Join fellow pilots in an open forum dedicated to VFR flying. Ask questions and share your experiences in a relaxed, social setting. This monthly 2-hour forum is moderated by a Rainier Flight Instructor to ensure accurate information and interpretation of regulations, policies and safety. Student pilots encouraged to attend as this is an opportunity for FREE ground knowledge. All levels of pilots welcome.

Topic this month: Night Flying

Even if you do not plan to fly at night it is easy to get behind schedule and find yourself operating in the dark. There are some inherent risks to night flying but can be done safely as long as you consciously mitigate those risks.

Directions: RFS Classroom
