

FAA Safety Team presents:

IFR Workshop

Join fellow pilots in an open forum dedicated to IFR flying. Ask questions and share your experiences in a relaxed, social setting. This monthly 2-hour forum is moderated by a Rainier Flight Instructor to ensure accurate information and interpretation of regulations, policies and safety. Student pilots encouraged to attend as this is an opportunity for FREE ground knowledge. All levels of pilots welcome.

Topic this month: Navigation Equipment
Navigation is rapidly becoming based on GPS instead of traditional radio nav aids. But if a solar flare interferes with your signal or your antenna fails, what's your plan?

Directions: RFS Classroom
