

FAA Safety Team presents:

Traits Of A Superior Pilot

Personality traits of pilots may or may not lead to them having an accident. This statement is based on a study partially funded by Avemco, and the Airmanship Education and Research Initiative (AERI), conducted by Dr. Bill Rhodes. Dr. Rhodes dissected claim files of fatal accidents, talked to pilots, instructors, and insurance underwriters to see what common traits accident pilots possessed vs. traits of pilots that had not had an accident. A pilot can hopefully identify in themselves traits that may contribute to having an accident, so they can be aware of and hopefully change those traits. Mike Adams, Senior Vice President of Underwriting, is an instrument-rated pilot, a Northwest native, and a former President of the Oregon Pilots Association. Mike holds a property/casualty insurance license in all 50 states. His more than 36 years of combined experience of general aviation and the aviation insurance industry helps pilots to understand why many of Avemco's coverages and underwriting decisions are designed to help keep you safe. and the aviation insurance industry helps pilots to understand why many of Avemco's coverages and underwriting decisions are designed to help keep you safe.

Event Details

Sat, Feb 22, 2020 - 15:30 PST
Puyallup Fair & Events Center
110 9th Avenue SW
Puyallup, WA 98371

Contact: Rachel Hansen
