

FAA Safety Team presents:

## **Digital Aviation Services (DAS)**

Each National Weather Service (NWS) forecast office currently provides TAFs for only a select handful of locations within the office's area of responsibility. Digital Aviation Services (DAS) will be the next evolution of aviation weather services provided by the NWS. With this new framework, DAS will be a set of products and aviation forecast guidance available for the entire forecast area, essentially providing TAF information for any location! Come learn about what new weather forecast information will be available and when you'll have access to this exciting new resource.

**Directions:** Western Washington Fairgrounds are located in Puyallup, just off Hwy 512, at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. FREE Parking in BLUE Lot. If flying in to PLU see additional information below for shuttle details.
