

## Power Loss at 300 Feet - What Went Wrong - What Went Right

Philip Mandel CFI and his primary student experienced significant power loss at 300 feet AGL over the city of Vancouver WA off Pearson Field (KVUO) in April 2019. With the help of dashcam video that captured the event, Philip will share lessons learned from the scariest two minutes of his life. He says he did more things wrong than right yet still managed to nurse the Beech Musketeer back to the field and land opposite direction without bending anything.

**Directions:** Western Washington Fairgrounds are located in Puyallup, just off Hwy 512, at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. FREE Parking in BLUE Lot. If flying in to PLU see additional information below for shuttle details.
