

FAASTeam presents:

# IMC Club Monthly Meeting - Bremerton

IMC Club (Tacoma Narrows-PWT) meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: continually improve proficiency in IFR flying for pilots at ALL experience levels. This is a true participative discussion seminar and NOT just another one-sided lecture. This seminar is eligible for WINGS credit through the FAASTeam.

For this month, Bruce Williams, CFII, a noted aviation speaker, pilot and educator, (see [bruceair.com](http://bruceair.com) and [PilotWorkshops.com](http://PilotWorkshops.com)) will be leading a discussion on Flying IFR with an EFB(i.e. Foreflight) while avoiding unintended consequences of the "easiness" of that EFB. What are the traps and "gotchas" that EFB's can make us prone to?? How do we best battle complacency? What are some ideas we can use in the real IFR world to build our personal procedures and tactics to avoid becoming "children of the magenta line?"

Pilots of all skill levels and experience from student pilot to ATP are welcome. IMC clubs are sponsored by EAA, which provides the training resources/scenarios to local coordinators/clubs.

## Event Details

**Sat, Mar 4, 2023 - 09:00 PST**

**Bremerton Airport**

8850 WA-3

Bremerton, WA 98312

**Contact: ERIC JACQUES RUBEL**

**(253)273-8140**
