

FAASTeam presents:

IMC Club Monthly Meeting - Bremerton

IMC Club (Tacoma Narrows-PWT) meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: continually improve proficiency in IFR flying for pilots at ALL experience levels. This is a true participative discussion seminar and NOT just another one-sided lecture. This seminar is eligible for WINGS credit through the FAASTeam.

Our scenario this month: Sometimes the published procedure notes make no logical sense. How can an approach be forbidden under IFR when you could fly the exact same path VFR safely? Will you follow the letter of the law or trust your eyes and a PAPI—or use some other combination of techniques—to reach your destination in the dark?

Pilots of all skill levels and experience from student pilot to ATP are welcome. IMC clubs are sponsored by EAA, which provides the training resources/scenarios to local coordinators/clubs.
