

## IMC Club Monthly Meeting - Bremerton

IMC Club (Tacoma Narrows-PWT) meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios which call for tough decisions in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: **continually improve proficiency in IFR flying** for pilots at ALL experience levels. This is a true participative discussion seminar and NOT just another one-sided lecture. This seminar is eligible for WINGS credit through the FAASTeam.

This month we will be discussing Emergencies from an IFR perspective, (including real world scenarios by the pilot involved). For example: Engine problems (reduced power leading to possible engine failure) and Autopilot problems (stuck trim or other AP malfunction). What would you do? Come discuss with us !!
