

## Bremerton and South Sound EAA Chapter Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

**The scenario we will discuss at this meeting is:** This month we will be discussing an IFR approach scenario at KCWC airport, which has only one approach, RNAV35. Unfortunately, winds (180@5) are favoring the opposite runway. The traffic pattern for VFR traffic may not match the IFR circling restrictions, so it will be a challenge to land safely with VFR traffic in the pattern.
