

EAA Bremerton Chapter 406 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

The scenario we will discuss at this meeting is: A recent round trip flight flying IFR from Tacoma Narrows Airport to Oshkosh Airventure 2024 in a Cessna 172S. Real world weather scenarios, fuel planning, automation management and human factors will be discussed.

Bring your EFB, your experience, and your questions, and be ready to participate.
