

VMC/IMC - WPA Paine Field Monthly Safety Forum

Safety and educational scenarios presented and discussed in a forum setting for VFR and IFR pilots. Current Topics related to safety of flight in VMC and IMC conditions are presented for discussion and education in a forum setting by experienced CFI's and pilots. Active audience participation is encouraged.

"What would you do, and why" discussions provide insight and knowledge through active audience participation.

In this month's meeting we will be discussing the following:

VFR topics include flight following through a busy Class Charlie and Class Bravo airspace, then flight following termination just prior to entering Class Bravo via the VFR flight corridor.

Event Details

Wed, May 21, 2025 at 19:00 PDT

Propeller Aero Services

9724 Wilcoxson Way
2nd floor conference room
Everett, WA

Contact: Richard Dennis Beckert

425-330-2809

rbeckert@msn.com

Select #: NM01137189

**Representative Richard Dennis
Beckert n/a**

IFR topic is flying an RNAV approach to minimums with deteriorating weather. Presents different options for a successful flight.
