

IMC Club Monthly Meeting - Bremerton (Hybrid Event)

IMC Club (Tacoma Narrows-PWT) meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios which call for tough decisions in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: **continually improve IFR proficiency** for pilots at ALL experience levels.

Our topic this month: How to prepare for and deal with unexpected downgrades in technology (such as partial loss of GPS/WAAS or ILS signals), all in the context of real weather and other IMC challenges.

Pilots of all skill levels and experience from student pilot to ATP are welcome. This seminar is eligible for WINGS Credit through the FAASTeam.

Bremerton Airport (KPWT) Terminal Building Conference Room.
Fly-in parking available.
