

IMC Club Monthly Meeting - Bremerton (Hybrid Event)

IMC Club (Tacoma Narrows-PWT) meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios which call for tough decisions in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: **continually improve proficiency in IFR flying** for pilots at ALL experience levels. This is a true participative discussion seminar and NOT just another one-sided lecture. This seminar is eligible for Wings Credit through the FAASTeam.

Our scenario discussion this month is centered on dealing with a partial or full engine power loss in IMC conditions. What are your options and how should you decide?
