

## IMC Club Monthly Meeting - Bremerton (Hybrid Event)

IMC Club (Tacoma Narrows-PWT) meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios which call for tough decisions in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: **continually improve proficiency in IFR flying** for pilots at ALL experience levels. This is a true participative discussion seminar and NOT just another one-sided lecture.

Our topic this month is a scenario based discussion: What are the common factors that lead to loss of control in IMC? How can we train and plan to avoid loss of control situations? What techniques can be used to effectively deal with incipient loss of control?

Pilots of all skill levels and experience from student pilot to ATP are welcome.
