

VFR/IFR - WPA Paine Field Monthly Safety Forum

Safety and educational scenarios presented and discussed in a forum setting for VFR and IFR pilots.

Current topics and scenarios related to safety of flights in VMC and IMC conditions are presented each month. **"What would you do, and why"** discussions provide insights and knowledge through active audience participation. The forum is led by experienced CFI's.

This month there will be two scenarios to discuss:

For the VFR scenario: Departing VFR from Grand Rapids, MI with a little fluffy snow on the wings.

For the IFR scenario: Approaching an airport in a busy airspace with an instrument approach, good VFR, but hard to identify with blinding sun.

Event Details

Wed, Apr 22, 2026 at 19:00 PDT

Propeller Aero Service

9724 Wilcoxson Way
Suite I

Everett, WA

Contact: Richard Dennis Beckert

425-330-2809
