

Bremerton IMC Club

The Bremerton EAA IMC Club meets monthly for guided discussions (also known as "hangar talks") focused on real scenarios which call for tough decisions in the real world IFR environment. As we discuss the monthly scenario, we share ideas and safety tips on how best to deal with specific IFR challenges. Our objective: **continually improve proficiency in IFR flying** for pilots at ALL experience levels. This is a true participative discussion seminar and NOT just another one-sided lecture. This seminar is eligible for Wings Credit.

We will be reviewing how to get ready for a partial panel scenario, and how to best communicate with ATC during this event. We will examine a real-world incident where there was a distinct loss of situational awareness between the Pilot and ATC.
