# iPad 101

This course covers the basics of iPad operation with a few tricks thrown in: from how you turn the device on, to how you make setting changes, shortcuts and apps folders. Once you've mastered the basics, we cover some of the "best-of-breed" aviation apps that will optimize your device.

## Register

**Directions:** Located in the Colorado jetCenter building on the west side of the airport. From I-25 take US 24 East which turns into Fountain Blvd. Continue past Powers Blvd. At Airport Way turn left, and make the first right turn to the jetCenter.

### A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
