

North Metro Aviation Safety Meeting

You are invited to our latest open forum to further discuss possible new collision avoidance procedures and guidelines that the GA community can mutually create and adopt to improve the safety margin in the aviation practice areas bounded by LMO, EIK, BJC and BDU.

Directions: From West 120th turn south onto Corporate Way and follow it around to the Heli-Ops hangar situated just east of the rotating beacon. Parking is free and plentiful. Enter through the west doors and proceed into the hangar. We are in the Tri-Pac Hangar by the Beacon, next to the old Steven's Building.

If you would like to fly in, we have plenty of ramp space. We are in the Tri-Pac Hangar by the beacon.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
