

Airport Construction & Storm Chaser Tools

This month's seminar will be packed with information to help make flying this summer more enjoyable and safe. To start, we will hear from KAPA airport construction planners. They will advise us of the extensive construction schedule this summer and how to minimize your flying inconvenience. We will continue with discussing weather analysis tools used by our resident "Storm Chaser"! He will introduce us to these sites and explain how you can utilize them to make better Go/No Go decisions.

Directions: The Ramada Inn is immediately to the northeast of the Centennial airport Control Tower. Arapahoe conference room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
