

Crosswind Landing Excellence

Crosswind landings are the number one real-world weather related cause of accidents in General Aviation. Paul Dickson of Crosswind Concepts, Ltd. has been teaching and training for over 20 years. He has learned how to use various resources and a specialized crosswind simulator to help pilots of every level to master crosswind technique.

Directions: From I-25 and E. Arapahoe Rd., proceed east to S. Peoria St. Turn right. At the entrance to Centennial Airport, turn right. Just before the control tower, turn left into the Hotel parking lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
