

Winter Weather Hazards to Flight

Weather is among the most important elements in the go/no go decision for flying. You can't have too much weather education.

Winter offers some great flying, with increased performance due to colder temperatures.

However there are weather hazards that increase with the season as well. This seminar addresses these hazards.

Directions: From I-25 and E. Arapahoe Rd., proceed east to S. Peoria St. Turn right. At the entrance to Centennial Airport, turn right. Continue around the control tower. Turn right just past the yellow CAUTION sign. In the Arapahoe Aero building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
