

Stick n' Rudder Ground School

Crosswind landings are the number one real-world weather related cause of accidents in General Aviation. Largely this is due to inadequate stick-and-rudder skills and the training necessary to create landing excellence.

This ground school provides the knowledge foundation for crosswind success.

Directions: From I-25 and E. Arapahoe Rd., proceed east to S. Peoria St. Turn right. At the entrance to Centennial Airport, turn right. Turn right again at the first parking lot entrance, then right into the Tac Air Hangar 10 parking lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
