

Learning From Recent Accidents and Incidents at Erie Municipal Airport

Erie is no different from many small non-towered airports: we have a diverse mixture of aircraft and pilots using the airport each day, from the lightest "ultralights" to balloons, helicopters and small jets. Much of the activity is training, and these varied experience levels challenge each of us to operate safely around the airport. Occasionally, we have an incident or accident, just like any busy airport or highway, and our intention for this gathering is to look carefully at several of these events, to draw the lessons from each. Your host, Michael Maya Charles, is a resident at the Erie Airport, a dual-rated ATP-CFII with over 23,000 hours of flying experience, and a FAAST Team Member for the DEN FSDO.

Directions: The Erie Community Center (aka, "Erie Rec Center") is located on the south side of old town Erie, adjacent to the Erie Public Library.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
