

Copters for a Cause Continuing Education Series

This program will cover two major topics: How to properly deal with inoperative equipment, and the applicability and use of MELs under Part 91 and Part 135. We will also have a surprise guest who is a working helicopter pilot. He will share his struggles and triumphs in making it to the coveted seat he enjoys today. There will be pizza and drinks for all. Come enjoy the evening, meet others in the helicopter community, and learn something new and useful.

Directions: This beautiful facility is near Firestone, just west of I-25, where many of you have seen the green AirLife Bell 407 parked on the pad. The program will be held in the chief's office conference room, located right across from the Frederick/Firestone Fire Station #2, and across the parking lot from that parked 407. Here's a link to a map: http://www.fffd.us/wp-content/uploads/2013/05/station_2_map.gif

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
