

Aviation Weather Information and Sources Decoded

Weather is among the most important elements in the go/no go decision for flying. You can't have too much weather education.

We'll look at where aviation weather information can be obtained and then review specific printed reports like METARs and TAFs, and graphical reports like PROG CHARTS and WINDS ALOFT graphics

Directions: From I-25 and E. Arapahoe Rd., proceed east to S. Peoria St. Turn right. At the entrance to Centennial Airport, turn right. Continue around the control tower. Turn right just past the yellow CAUTION sign. In the Arapahoe Aero building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
