

FAASTeam presents:

Autorotate and Live

This presentation will analyze an autorotation accident to understand how an experienced aviator made several critical mistakes. It is intended to increase autorotation awareness by discussing different systems, autorotation procedures, techniques, and factors affecting an autorotation's success. We will also discuss Human Factors concerning ground and inflight distractions.

Directions: Please register for this Helicopter Webinar on Jul 11, 2017 6:00 PM MDT

Click on the registration URL link listed to register for this Webinar. You may need to copy and paste the link into your internet browser.

<https://attendee.gotowebinar.com/register/419475064792783361>

After registering, you will receive a confirmation email from GoToWebinar containing information about joining the webinar.

IMPORTANT: To receive your WINGS credit you will also need to register with faasafety.gov. You can find this next to the listed "registration information".

To ensure Webinar and Wings registration, confirm you received two emails. One from GoToWebinar and one from faasafety.gov.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
