

## Mountain Flying Safety Seminar

Flying skills should be guided and taught in the air with a qualified, competent, and proficient instructor. This is especially true of flying in, around, through, and above mountainous terrain. Mountain flying is for the thinking pilot; therefore much can be gained by detailed advanced planning on the ground before the flight. This seminar aims to prepare pilots for safe flight in an unforgiving environment.

**Directions:** This seminar is part of The Sky Is Not The Limit spring conference of the South Central Section of The Nine-Nines, Inc., hosted by the Pikes Peak 99s. There is no cost but donations to our local scholarship fund will be graciously accepted.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details
