

## Aviation Weather Fundamentals

Weather is among the most important elements in the go/no go decision for flying. You can't have too much weather education.

This seminar is a review of weather fundamentals in an interactive format, including a flight scenario and accident review.

**Directions:** From I-25 and Arapahoe Rd., proceed east to Peoria St. and turn right. At the entrance to Centennial Airport (where Peoria turns into Bronco's Pkwy), turn right and continue around the control tower. Just before the mailboxes on your left and just after the yellow caution, turn right into the alley. The front door is at the end of that alley in the Arapahoe Aero building. The classroom is upstairs to the left.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
