

Spring Weather Hazards

Weather is among the most important elements in the go/no-go decision for flying. You can't have too much weather education. This seminar will delve into the upcoming Spring flying weather conditions.

Directions: From I-25 and Arapahoe Rd., proceed east to Peoria St. and turn right. At the entrance to Centennial Airport (where Peoria turns into Bronco's Pkwy), turn right and continue around the control tower. Just before the mailboxes on your left and after the yellow caution sign, turn right into the alley. The front door is at the end of that alley in the Arapahoe Aero building. The classroom is upstairs to the left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
