

Airspace Safety

This event is open to all Certified Flight Instructors. Numerous pilots have reported near misses at area non-towered airports, practice areas used by flight schools and on practice instrument approaches that pass through the practice areas. Some pilots are using practice area frequencies to notify other pilots of their intentions, which helps but isn't enough. What can be done to improve the situation.

Directions: This event will be held at the Hanger Administration building at Centennial Airport. The address is 7565 South Peoria St., Unit D9, Englewood, CO 80112.

This event will be held in the Wright Brothers Boardroom.
